

The SRC circular push on fastener is a one-use fastener designed for use in assemblies which are not normally dis-mounted, as in order to do this it would be necessary to break the SRC.

It is used in applications which do not require great force such as electrical devices, electricity, gas or water meters, measuring instruments, etc.

MATERIAL: Steel spring
CK67 (DIN 10132-4)
FINISH: Zinc-Plated Cr3
HARDNESS: HV 390 ÷ 485 / HRC 40 ÷ 48
