

The SRC circular push on fastener is a one-use fastener designed for use in assemblies which are not normally dis-mounted, as in order to do this it would be necessary to break the SRC.

It is used in applications which do not require great force such as electrical devices, electricity, gas or water meters, measuring instruments, etc.

MATERIAL: Spring steel
HARDNESS: HV 390÷485 / HRC 40 ÷48
FINISH: Zinc plated
