

The SCO cable clip is a fastener which can be mounted manually on the outside edge of a panel at any point in an assembly line. SCO is both removable and reusable. Due to its flexibility, it can be used to fasten rods, cables, pipes, conduits etc in complete safety and with a wide range of different application diameters.

It has many general industrial applications but is particularly useful in automotive, electronics and white-goods applications.

MATERIAL: Spring steel
CK67 (DIN 10132-4)
FINISH: Anti-rust oil-dipped
HARDNESS: HV 425 ÷ 495 / HRC 43 ÷ 49
