

Mikalor designed the DIN 472-I assortment box to make sure that you have the circlip most suitable for your needs at your disposal.

Different dimensions of circlips are distributed in individual compartments meaning that you can find the circlip you require quickly and easily. The hardwearing assortment box incorporates a handle to ensure easy and comfortable transport of your circlip kit.

All assortment boxes include a list of contents on the underside of the lid.

WEIGHT: 2,143 kg
