

Anchor with metric thread that can be threaded into a metal plug for M10 façades and scaffolds. Once threaded, it activates the metal plug system that expands inside the hole generating pressure on the walls, achieving a highly secure fastening. The 50 mm ring can host any element that improves the fastening, such as 47 mm tube scaffolding extensions.

MATERIAL: Steel - Fe
FINISH: Zinc plated

Screw with Eyebolt for Anchoring Facades and Scaffolds Ø 50 M.10 (ASM50-16)
