

Long nylon wall plug with hex screw TX-L

Nylon plug made of 6.6 polyamide with built-in hex-head screw. These plugs have a minimum length of 80 mm and are designed to fix elements thicker than 10 mm. They are suitable for solid and hollow materials and have an expansion or knotting system, depending on the surface, which makes the application totally safe.

MATERIAL: Wall plug: Polyamide 6.6
Screw: Ø 5.5 Stainless steel
cemented carbon
Ø 7 Steel class 5.8

COVERING: Wall plug: RAL 7035 grey color
Screw: Minimal white zinc plated
5 microns ISO 4042
