

Max laser profesional general work Segmented - DGOMLS

Manual machine

This blade is perfect for dry cutting and suitable for cutting building materials that are not excessively hard or abrasive (construction brick, soft stone, masonry, cement tiles, ceramic tiles, concrete, etc.). Its MAX blade stands out for being laser-welded, offering great power, a very clean and linear cut, higher cutting speed and very good air cooling.

MATERIAL: Blade: synthetic diamond alloy and metal powder based
Cobalt, Nickel and Iron

USES: Sheet: tempered steel
Construction brick, soft stone, masonry, cement tiles, ceramic tiles, concrete
