

Manual machine

This blade is perfect for cutting hard materials and suitable for building materials such as ceramic clay, porcelain clay, klinker, fire brick, reinforced concrete, flint, fibrocement, hard tiles, etc. It has a segmented blade, which stands out for offering great power, higher cutting speed and very good air cooling.

MATERIAL: Blade: synthetic diamond alloy and metal powder based Cobalt, Nickel and Iron

Sheet: tempered steel
USES: Ceramic clay, porcelain clay, klinker, fire brick, reinforced concrete, flint, fibrocement, hard tiles

Part Number	Ø Exterior	Ø Inside	Blade size Width/Height	Blade Nº	RPM Max.	Quality	Box Quantity	Outer Box Quantity
