

This clamp is perfect for multiple fastening of different diameters. It is more robust than the lightweight band, provides a secure and reliable fastening and resists corrosive and humid environments as it is made of AISI 304 stainless steel. It is available in 30 m band rolls, with a thickness of 0.5 mm to 0.75 mm and 4 different band widths (from 6.4 to 19 mm). It is fastened with buckles that adapt to the band size and with a special key that tightens and cuts.

**MATERIAL:** W4 Stainless steel  
AISI 304

**CORROSION  
RESISTANCE:** 400 hours salt spray  
(ASTM B-117)
