

Banzai laser multipurpose blade Segmented - DMBS

Manual machine

This blade is laser-welded for extra resistance for cutting materials with a high iron content and even with rods in their composition. It has a segmented blade, which stands out for offering great power, higher cutting speed and very good air cooling.

MATERIAL: Blade: synthetic diamond alloy and metal powder based Cobalt, Nickel and Iron
Sheet: tempered steel

USES: Multipurpose (materials with a high iron index and even rods in their composition), fiber glass / PVC, marble, granite

Part Number	Ø Exterior	Ø Inside	Blade size Width/Height	Blade Nº	RPM Max.	Quality	Box Quantity	Outer Box Quantity
