

FREE-PL - Styrene-free polyester chemical anchor

Styrene-free polyester resin contains no additives or solvents and is recommended for use with solid brick, semi-solid brick, hollow brick and hollow concrete block. It can handle higher loads, of up to 700 kg in the case of masonry and 8900 kg in that of concrete. This product can be used with threaded rod. CE certificate option 7 and ETAG029.

USES:

- Uncracked concrete
- Hollow concrete block
- Solid brick
- Concrete repairs
- Versatile in all types of masonry: hollow and solid masonry, for cracks and filling vertical voids
- Humid and dry environments
- Use in immersed holes (concrete only*)
- Suitable for metric thread
- Ideal for medium loads
