

## EPO-TECH - Styrene-free epoxy acrylate chemical anchor

The main advantage of styrene-free epoxy acrylate is that it can be used with moist or slightly wet surfaces. It is recommended for use with solid brick, concrete, aerated concrete and wood. It can withstand loads up to 9500 kg in concrete applications. This product can be used with threaded and corrugated rod. CE certificate option 7.

- USES:**
- Uncracked concrete
  - Solid brick
  - Wood or other high-strength materials resistance
  - Use in immersed holes
  - Valid for metric thread and rebar.
  - Ideal for high loads
