

Lightweight pneumatic dispensing tool

The lightweight pneumatic dispensing tool was designed for industrial applications. It works at 1,5kN and has a working pressure of 6.8 bars. It has a direct action mechanism and is very quiet (less than 70dB). This tool is very compact and allows for the fast and effortless application of both high and low viscosity anchors.

Model (ml)	Part Number	Working pressure	Box Quantity	Outer Box Quantity
Cartridge of 300 and 310	06000130	6,8 bars	1	6
