

Ratchet strap - 1.200 kg (100 m)

The polyester band is very suitable for single-use lashings to immobilize loads arranged in containers suitable for freight transport. In addition, its correct application avoids possible damage due to bumps, friction and movement or tipping during the transport of the load.

MATERIAL: 100 % polyester
FINISH: Orange colour

Besides, bands for fastening systems are also lighter, easier to handle and cheaper than chains or steel wires.
