

The Supra CT clamp incorporates a bespoke bolt and a series of conical washers to the already outstanding Supra clamp. This specialized version of the Supra clamp is used in applications subject to vibration and/or great variations in temperature which can cause the spring washer system, the Supra CT maintains constant pressure around the hose despite variations in temperature or vibration.

This clamp is generally fitted in combustion engines in construction machinery, trucks, tractors, buses, marine engines, military vehicles and diesel-powered generators. The bevelled edges protect the hose from damage.

The Supra CT clamp complies fully with the Directive EU 20032/95/EC.

MATERIAL: Band and bridge: W2
Stainless steel X6Cr 17
DIN 1.4016 AISI 430
Bolt: Stainless steel
AISI 430
Washers: Stainless steel
AISI 304

RESISTENCIA A LA CORROSIÓN: 72 hours salt spray
ASTM B-117

* The maximum application pressure can vary depending on the type of hose used and the geometry of the coupling.
