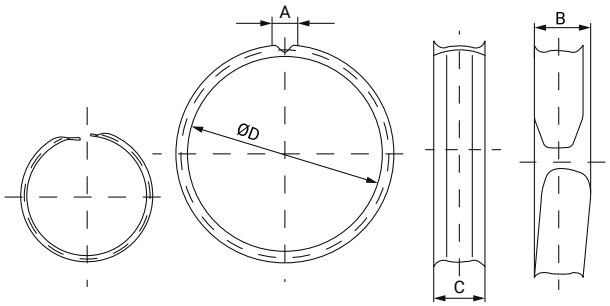
Stainless Steel Inner-Ring for ASFA-S Hose Clamps - White



This inner-ring for the ASFA S worm-drive clip with 12 mm bandwidth was designed to give extra protection to the hose, especially where it comes into contact with the underside of the clamp housing.

Inner-rings are particularly recommended for use with silicone hoses, which are quite fragile and can be cut easily. The inner-ring ensures a good fit, prevents damage to the hose and also contributes to an even distribution of pressure around the hose.

MATERIAL:	Stainless Steel W4 AISI 301
FINISH:	Without finish
CORROSION RESISTANCE:	400 hours Salt Spray ASTM B-117
